

Dubceiver

Originated by Jordan Carter, tied by Dustin Tabert

Tying instructions

Hook: Mustad signature series C68S SS. size 1

Tail: White buck tail, A pair of grizzly saddle hackles splayed

Body: Purple Polar flash under A veil of white marabou

Head: UV gray ice dub over UV polar ice dub

Eyes: molded iridescent or white doll eyes

This fly is designed unweighted so it swims very erratic when retrieved in current. It can be fished on a sink tip or full sinking line if a deeper presentation is needed. This fly was deadly in Lake St. Clair for big smallmouth in the crystal clear water, when other flies proved unsuccessful.
